UNITED STATES DISTRICT COURT FOR THE
SOUTHERN DISTRICT OF WEST VIRGINIA

UNITED STATES OF AMERICA

v.

CRIMINAL NO. 3:23-cr-00005

WESTERN RIVER ASSETS, LLC

STIPULATION OF FACTS

The United States and David K. Smith (hereinafter "I" and "my"), on behalf of Western River Assets, LLC, stipulate and agree that the facts comprising the offense of conviction and the relevant conduct for that offense, include the following:

I do not dispute that the United States could prove the following facts:

1. I was the owner and sole member of Western River Assets, LLC, (WRA) and River Marine Enterprises, LLC (RME). WRA and RME were registered limited liability companies in the Commonwealth of Kentucky. From at least 2010 through 2018, I was the sole owner and officer of WRA and RME. As such, I was responsible for the operations of both companies.

2. WRA owned a towboat named the M/V Gate City, and moored the towboat along the West Virginia shore of the Big Sandy River from at least 2010 until January 2018. The M/V Gate City was operated by RME from at least 2010 until January 2018.

3. The Big Sandy River was a navigable water of the United States at the location where the M/V Gate City was moored along the West Virginia shore.

4. On or about November 2017, the United States Coast Guard inspected the M/V Gate City and, on or about December 5, 2017, issued an Administrative Order to me which said in part that the Coast Guard determined the M/V Gate City presented an "imminent and substantial threat to the public health or welfare or the environment because of a threatened discharge of oil from the

vessel." The Order required me to remove all oil and hazardous substances from the M/V Gate City prior to January 31, 2018.

5. The M/V Gate City sank at its mooring along the West Virginia shore of the Big Sandy River on or about January 10, 2018. At the time of the sinking of the M/V Gate City, I had yet to comply with the December 5, 2017, order from the Coast Guard. After December 7, 2017, and before January 10, 2018, RME contacted a qualified contractor to remove oil from the MV/Gate City. Due to site conditions prior to January 10, 2018, the contractor was not able to safely access the MV/Gate City to remove the oil.

6. The sinking of the M/V Gate City discharged oil and other substances into the Big Sandy River. The oil left a sheen on the Big Sandy River and oily deposits on the bottom of the river.

7. As a direct result of the sinking of the M/V Gate City and the resultant oil spill, the City of Kenova, West Virginia, closed its municipal drinking water intake. The drinking water intake, located in the Big Sandy River downstream from the M/V Gate City, was closed for three days.

8. As a direct result of the sinking of the M/V Gate City, various regulatory agencies and entities took actions and expended money and other resources to respond to the spill of oil and other substances.
